| <b>Sector</b>                                     | <b>Agriculture &amp; Allied Activity – Watershed Development</b>   |
| <b>Name of the Project</b>                        | <b>Watershed Development – Kandikere Halla SWS - 4D3D8N, 4D3D8U (9,300.87 Ha 17 Microwatershed, 26 villages)</b>   |
| <b>Proposal submitted by</b>                      | Department of watershed Development  |
| <b>Total Project Cost</b>                         | <b>INR 20.93 Cr.</b>   |
| <b>Coverage</b>                                   | Chikkanayakanahalli taluka   |
| <b>Project Duration</b>                           | 5 years  |
| <b>Project Implementing Agency</b>                | Department of Watershed Development  |
| <b>Objective</b>                                  | Comprehensive development of watershed for improving productivity of land, prevent soil erosion etc.   |
| <b>Output</b>                                     | <ul style="list-style-type: none"> <li>• Trench cum bund – 4000Ha.,</li> <li>• Farm Pond – 50 Nos.,</li> <li>• Rubble Check/Boulder Check – 38 Nos.,</li> <li>• RFD - 15 Nos.,</li> <li>• Gokatte – 10 Nos.,</li> <li>• Check Dam - 10 Nos.,</li> <li>• Nalabund – 10 Nos.,</li> <li>• Dry land Horticulture – 790 ha.,</li> <li>• Agro Forestry – 710 Ha,</li> <li>• Fodder development – 1800 Nos.</li> <li>• Livelihood Activity - 2046</li> </ul>  |
| <b>Justification</b>                              | <ul style="list-style-type: none"> <li>• The project is in the mining affected area and have suffered on account of mining and ore transportation leading to reduced capability of land as well as recharge</li> <li>• It will help in improving the soil and water conservation.</li> <li>• It will also help in improving ground water level</li> <li>• And finally help to improve the socio-economic condition of communities.</li> </ul> <p>Therefore, the project is proposed for funding from KMERC under CEPMIZ.</p> |
| <b>Outcome<br/>(Expected Measurable Benefits)</b> | <ul style="list-style-type: none"> <li>• To recharge ground water table</li> <li>• Regeneration of natural vegetation</li> <li>• Rain water harvesting</li> <li>• Multi cropping &amp; diverse activities – Double cropping –50%, Animal Husbandry – 10%, Family horticulture – 50% families.</li> <li>• To provide sustainable livelihood</li> <li>• Prevention of soil erosion</li> </ul>  |
