

Sector	Eco-Restoration (Pollution Control)
Project Name	Procurement and establishment of Integrated noise level monitoring unit in Hospet Taluka, Vijayanagara
Submitted by	Karnataka State Pollution Control Board (KSPCB)
Project Cost	INR 0.20 Cr.
Coverage	Hospet Taluka
Duration	Medium Term (1-3 Years)
P I A	Karnataka State Pollution Control Board (KSPCB), Vijayanagara
Objective	To improve regulatory control on pollution and provide better environmental conditions in the mining-affected areas of the District.
Output	<ul style="list-style-type: none"> • Integrated Noise Level Monitoring unit / Station- 1 No.
Justification	<ul style="list-style-type: none"> • Major large red category industries along with mining regions are in the jurisdiction of Vijayanagara District. Hence to monitor the noise level in the cluster of industries and in mining affected areas there is need of 1 integrated noise monitoring station. • Due to insufficient availability of fund at the Department level the activities have been proposed CEPmiz for funding support.
Outcome (Expected Measurable Benefits)	<ul style="list-style-type: none"> • Improved monitoring of air quality and noise levels in the region. • Improved environmental conditions for humans to reside. • Improved health by maintaining ambient air & noise quality within standards.
